SUBJECT : Selected Power Plants in the USSR

REFERENCES : (1) ORR Requirement No. C-PR3-80,292
(2) CIA Project No. C 858-63

1. This memorandum is in response to the above referenced requirement calling for photo enlargements of five thermal power plants in the USSR.

2. The search for these power plants included study of the following missions to determine best quality and most current coverage:

[redacted] proved to be best quality and were selected for enlargement purposes. The plants at Kaliningrad, Bereza, Minsk and Vasilevichi are shown without doubt. However, a thorough search of the area at the coordinates 54° 16'N - 28° 21'E, and at the town of Vasilevichi failed to provide a positive identification of a thermal power plant. A large construction site close to the coordinates gives some indication of being a power plant site. For instance, cuttings leading to the sea may be possible paths for intake and discharge of cooling water. The enlargements are all 50% magnification.

3. The photo analyst assigned to this project was [redacted]. Should any question arise concerning this requirement he may be contacted directly or exten... [redacted]
